## WHY CHOOSE US

Deep benefit administration and voluntary benefit experience

CLIENT SATISFACTION

We obsess over the little things that matter so our clients continue to grow

Data Integration
The most sophisticated data engine in the benefit space - connect with all of your vendors.

Newest User Tools
Natural Language search, mobile-friendly, Slack-like internal messaging and decision support.

ACA Compliance
Track hours and eligibility - produce required forms and file each year.

THE MOST MODERN TOOLS TO DEPLOY A COMPLEX RULES BASED PLATFORM

Our benefit administration technology and user experience was created for the needs of HR and Benefits Professionals Today and moves with you in the future.

Atlanta, GA 30308

A Deep Understanding of What Needs To Get Done

Enroll Online: One of the newest and most innovative self-service enrollment experiences. Enrollment should be easy and understandable. **Optimized for use on mobile devices.**

Data Integration: We believe we have the most sophisticated data engine in the benefits administration space - connect with all of your vendors. We work with your file spec and send data the way you need it.

Reporting: Important reporting tools tools for all types of HR and Benefits needs. Our library keeps growing along with unique custom scheduling features.

Voluntary Benefits: Enroll your voluntary benefit plans in one system – we understand how they work and interact with your core plans as well as the administration required.

New Technology: Zevo is built on the latest cloud-based applications, allowing us to leap ahead of the crowd to deploy quickly and ensure accuracy. Blockchain in use to secure history.

ACA Reporting: The most accurate suite of ACA services in the benefits industry. Generating your 1095-C and 1094-C reporting and fulfillment is straight forward and timely. If you need hours tracking we have that too.

Automation: We seek to automate as much as we can to help remove the manual work often related to benefits administration. As we get to know your process we look to streamline.

Chat: Employees can interact with HR or Call Centers with every chat session attaching to the employee record in our unique "conversations' folder.

"This was the best managed process and best tool I have seen through roughly 40 open enrollments I have completed over the last 20 years – between my wife and my own. Kudos to you all for producing such a well-thought-out and professional product." – **SVP Finance of a large employer**

"The user experience for both the employee and the administrator Is the best we have seen in the market." – **Major Insurance Carrier Team**

"Our customers love the ease of use and intuitive nature of the enrollment experience. Data integrity and reporting are the best we have seen." – **National brokerage organization**
